- Setting up a Web Account
  - o Register your Web Account using www.remoba.com.
  - o Download free Sync Client from www.remoba.com to your Desktop and follow the Wizard to setup Sync Schedule.
  - o Synchronize your Desktop Outlook Contacts, & Calendar to your new Web Account at Remoba Hosted Server.
- Sync Desktop Outlook Contacts and Calendar to Mobile Phone.
  - o Select Get IT Now → Get Going → iPhonebook
  - o After launching iPhonebook, Select "Existing Users" (first time only) and enter four digit PIN.
  - o Select "Contacts", and in the Contacts menu screen Select "Sync Contacts". Now, the Contacts are synchronized to Native Phone Contacts from Server.
  - o Select "Calendar", and in the Calendar menu screen Select "Refresh". Now, Six week calendar is synchronized to application calendar.

2. **Quick Start Guide for Remoba iPhonebook Corporate Account:**

   5 easy steps to setup the Business Account

   - Contact Remoba Technical Support: 1-877-5-REMOBA (1-877-573-6633) or support@remoba.com.

   - Remoba will Setup the Remoba Web Account by importing Employee and Contact Lists through coordination with the Authorized Business Administrator.

   - Remoba will provide 2 hr Interactive Product Demo to Business Administrator.

     o Administrator Organizes Employees into Groups or Sub-Groups and Sets the Access privileges or Controls such as Call Restriction, Autosync and Login controls, etc for each Employee.

   - Download iPhonebook application onto Mobile Phones from "Get It Now".
     o Select Get It Now → Get Going → Get New applications → Business/Tools → iPhonebook

   - Sync Business Contacts and Calendar Events to Employee Handsets
     o Select Get IT Now → Get Going → iPhonebook
     o After launching iPhonebook, Select "Existing Users" (first time only) and enter four digit PIN.
     o Using Admin Account on Remoba Website, use "Forced Sync" operation to all the Handsets.
     o Now, all the Handsets will be synchronized with appropriate Contacts and Calendar Events as permitted by Administrator.

     If Administrator allows Employees to Sync their Private Contacts from the Desktop Outlook:
     o Employees need to Register at www.remoba.com to Setup Personal Web Account.
     o Download free Sync Client from www.remoba.com to your Desktop and follow the Wizard to setup Sync Schedule.
     o Synchronize your Desktop Outlook Contacts, & Calendar to your new Web Account at Remoba Hosted Server.
